

Stainless Steel Bucket, 8 Gallon

8 gallon stainless steel bucket for use with EL and VK Mops

Description

The 2601 bucket is a deep-drawn, seamless bucket made from type 304 stainless steel. It features a large wire handle and four casters for easy transportation and rolling. The entire assembly is autoclavable for sterile environments. It is used in conjunction with the Royal Prince downpress wringer (#2621/80) assembly for wringing both Edgeless and VertiKlean mops.

Features and Benefits

- Deep-drawn, seamless design
- Fully autoclavable for sterile environments
- Use with downpress wringer and basket insert for complete bucket/wringer system

Applicability

The information presented here is applicable to the part numbers shown below as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.

2601

Notes:

- 1) Data shown are typical values and should not be used as product specifications.
- 2) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- 3) Current and/or comparison data may be available. Please contact a Contec sales representative for details.
