

QuickTask™ 0400 Mop Head

100% Polyester Microfibre Medium-Loop Mop Head

Description

The QuickTask range consists of a variety of mop heads that are easily installed onto a hinged head frame, and handle assembly.

The microfibre loops of the QuickTask 0400 mop head provide exceptional performance in removing soil, residues, and other contaminants from most surfaces. The medium length loops conform to almost any shape, making cleaning of cove bases and ceiling/wall joints easier than with standard flat mops. The microfibre construction is very sorbent, and the mop can be used for application of a wide range of solutions, as well as to mop-dry wet surfaces.

Compatible with a wide range of chemicals and disinfectants, the QuickTask 0400 may be autoclaved and laundered repeatedly, providing exceptional value.

Features and Benefits

- Microfibre construction for exceptional sorbency and mop-dry performance
- Medium-loop design allows easy contact with irregular surfaces such as cove bases
- Compatible with a wide range of chemicals and disinfectants
- Can be laundered repeatedly
- Autoclavable

Applicability

The information presented here is applicable to the part numbers shown below, as well as to any product containing the same materials and produced under the same conditions, regardless of product size or packaging configuration. Please contact a Contec sales representative for more details.

Notes:

- 1) Data shown are typical values and should not be used as product specifications.
- 2) Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions.
- 3) Current and/or comparison data may be available. Please contact a Contec sales representative for details.

Technical Data

Mop head component materials (cleaning surface first) | 100% polyester microfibre loop; woven polyester backing; woven polyester hemmed edge

Construction | Multi-layer sewn lamination

Dimensions; (cm) | 12 x 41

Attribute; (units)	Value	Test Method
Mop weight, dry; (g/mop)	1915	Contec Method*
Sorbency, IPA/water, (mL/mop)	2750	CTM005*
Non-volatile residue, NVR		IEST-RP-CC004.2, Sec. 6.1.2
In deionised water; (g/m ²)	0.017	
In isopropanol; (g/m ²)	0.097	
Particles ≥ 0.5µm; (x10 ⁶ /mop)	36	IEST-RP-CC004.2, Sec. 5.2
Fibers > 100µm; (x10 ³ /mop)	0.165	IEST-RP-CC004.2, Sec. 5.2
