

ATHLETIX™

Equipment Cleaner

Directions for Use

- Use one Athletix™ Equipment Cleaner wipe to clean the equipment you are about to use (or have finished using).
- Pull up on the first wipe in the dispenser and snap down to tear at the perforation.
- One presaturated wipe will do the trick. No need for spray bottles filled with liquid. Just wipe away the dirt, sweat and body oils left behind by the previous user.
- Please dispose of wipe when you are finished.

Alcohol-free Athletix Equipment Cleaner wipes are safe for use on any surface. Do not hesitate to wipe vinyl or leather seats, chrome handle bars, rubber or foam grips and electronic display units.

NOT FOR PERSONAL USE
