

# Buckets

Contec offers a variety of mop buckets made from a unique polypropylene copolymer plastic that is both durable and lightweight. Buckets are color-coded (blue, red, and gray) for easy identification of waste vs. fresh solution. Compatible with all common disinfectant solutions and most common solvents. All components listed may be sterilized by autoclave or gamma irradiation.

Autoclavable at 121° C for 30 minutes.

Features	Benefits
Buckets are color-coded	• Easy identification of waste vs. fresh solution.
Buckets are deep drawn and seamless	• Reducing the risk of microbial contamination

Part No.	Description	Packaging
UBKT0001	Blue polypropylene bucket, 6.5 gallon (25L)	1 each/case
UBKT0002	Red polypropylene bucket, 6.5 gallon (25L)	1 each/case
UBKT0003	Gray polypropylene bucket, 6.5 gallon (25L)	1 each/case
UBKT0004	Gray polypropylene bucket, 5 gallon (20L)	1 each/case
UBKT0005	Red polypropylene bucket, 5 gallon (20L)	1 each/case
UBKT0006	Blue polypropylene bucket, 5 gallon (20L)	1 each/case
UBKT0008	Red, Blue, and Gray polypropylene buckets, 3.9 gallon (15L)	1 set/case
PB6BS-3	Polypropylene utility bucket, 1.6 gallon (6L)	2 each/case

## Product Information

Materials of construction	Polpropylene copolymer/stainless steel handle	
Dimensions	6.5 gallon	20" x 13" x 10.5" / (51x33x27cm)
	5 gallon	21" x 9.5" x 10.5" / (54x24x27cm)
	4 gallon	18.5" x 6" x 9.75" / (47.6x15.25x25cm)
	1.6 gallon	8.75" x 6" x 9" / (22.2x15.24x23cm)
