

Compact Bucket System

Stainless steel cart with removable handle and **two** 3.9-gallon (15L) polypropylene buckets

Description

The compact bucket system with removable handle is easy to maneuver and to store in any facility. The system can be used with two or three rectangular buckets, depending on cleaning protocols.

The durable yet lightweight cart has four heavy-duty Kryptonite™ casters. All four casters swivel for ease of maneuvering in confined spaces and can be locked to secure the cart while in use.

The buckets interlock preventing drips between buckets. The entire system and related buckets are autoclavable at 121°C for 30 minutes.

Available Accessories:

2639 – Stainless Steel mop removal tool (for VertiKlean® MAX™)

Disposal bags:

BNBG0001

BNBG0002 – irradiated

Sieves:

2689 – flat sieve fits 15L buckets
