

Edgeless[®] Mop

Gray Polyester cleanroom mop

Description

Edgeless Mops are made from strong, durable knitted polyester, eliminating contamination from breakage and deterioration common with cotton and rayon string mops. Cleanroom laundered Edgeless Mops are made from a continuous tube of 100% polyester knitted fabric looped to form tubular mop strands that will not shed or break.

Designed for use with aqueous solutions containing cleaning agents and disinfectants, Edgeless Mops are compatible with a wide range of chemicals. These mops work well with existing string mop hardware; however, we highly recommend a down-press wringer for proper liquid extraction.

The Edgeless Mop can be used with ELMOP hardware and a variety of Contec QuickConnect handles.

This mop is fully autoclavable cycle of 121°C for 30 minutes.
