

Thunderbuff™

Silicone-free nylon/polyester microfiber wipe

Thunderbuff™ wipes are silicone-free, terry style knitted wipes made of nylon/polyester microfiber. The microdenier fiber construction is durable, lint reducing, and holds more wax thus taking it longer to fully “load.” These washable wipes are laundered in a cleanroom laundry to reduce linting and particle generation, which makes them ideal for removing glaze, polish, dust, fingerprints, and detailing overspray.

The LWTB0001 and LWTB0006 wipes feature a proprietary wrapped hem, which ensures the wipes will retain shape and not develop curled or frayed edges.
