

BioTuff™ Wipes

For polishing, buffing, and streak-free shine

Discover the cleaning power of **BioTuff™ Cotton Towels**, crafted with 70% cotton for a soft, durable, and highly absorbent cleaning experience. These versatile towels are perfect for everything from elevator detailing to window washing, delivering superior results on a variety of surfaces.

Whether you're polishing mirrors, wiping down countertops, or maintaining stainless steel, **BioTuff™ Cotton Towels** offer a streak-free shine every time. Plus, their biodegradable composition makes them an eco-friendly choice, minimizing environmental impact after disposal.

Features	Benefits
70% Cotton	Combines softness and strength for effective, non-abrasive cleaning
Eco-Friendly	Made from biodegradable material, reducing waste and supporting a sustainable environment
Highly Versatile	Suitable for use on mirrors, countertops, windows, stainless steel, and other surfaces
Streak-Free Performance	Leaves no residue behind, ensuring a polished finish
Durable & Absorbent	Strong enough for tough cleaning tasks while offering excellent absorption

Choose the Right Wipe
Choose BioTuff™ Cotton Towels for a cleaning solution that balances strength, performance, and sustainability. With 70% cotton content and biodegradable components, you can confidently clean while reducing your environmental footprint.
