

SAFETY DATA SHEET

1. Identification

Product identifier	Contec Bottles containing 70% Isopropyl a	lcohol, (7030LQFL)
Other means of identification		
SDS number	7030LQFL	
Product code	HCCP7030FT-32, HCFT7030IR, HCFT7030IF SBT167030, SBT327030, SB327030IR-BR	R-32, SB167030IR, SB327030, SB327030IR,
Recommended use	Bottled IPA for critical cleaning.	
Recommended restrictions	None known.	
Manufacturer/Importer/Supplier	Distributor information	
Company Name	Contec, Inc.	
Address	525 Locust Grove	
	Spartanburg, SC 29303	
	USA	
Telephone	1-864-503-8333	
Email	SDS@contecinc.com	
Emergency phone number	Call CHEMTREC day or night	
	USA/Canada: 1.800.424.9300	
	Mexico: 1.800.681.9531	
	Outside USA/Canada: +1.703.527.3887	
2. Hazard(s) identification		
Physical hazards	Flammable liquids	Category 2
Health hazards	Serious eye damage/eye irritation	Category 2A
	Specific target organ toxicity, single exposure	Category 3 narcotic effects

OSHA defined hazards

Label elements

Not classified.

Danger
Highly flammable liquid and vapor. Causes serious eye irritation. May cause drowsiness or dizziness.
Keep away from heat/sparks/open flames/hot surfaces No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist/vapors. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/protective clothing/eye protection/face protection.
If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Call a poison center/doctor if you feel unwell. In case of fire: Use appropriate media to extinguish.
Store in a well-ventilated place. Keep container tightly closed. Keep cool. Store locked up.
Dispose of contents/container in accordance with local/regional/national/international regulations.
None known.

3. Composition/information on ingredients

Mixtures			
Chemical name		CAS number	%
Propan-2-ol		67-63-0	70
Other components below report	able levels		30
Composition comments	All concentrations are in percent by volume.		
4. First-aid measures			
Inhalation	Remove victim to fresh air and keep at rest in a p center or doctor/physician if you feel unwell.	oosition comfortable for brea	thing. Call a poison
Skin contact	Take off immediately all contaminated clothing. F attention if irritation develops and persists.	Rinse skin with water/shower	. Get medical
Eye contact	Immediately flush eyes with plenty of water for at present and easy to do. Continue rinsing. Get me		
Ingestion	Rinse mouth. Get medical attention if symptoms	occur.	
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stin vision. May cause drowsiness or dizziness. Head		ing, and blurred
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat s immediately. While flushing, remove clothes whic ambulance. Continue flushing during transport to Symptoms may be delayed.	ch do not adhere to affected	area. Call an
General information	Take off all contaminated clothing immediately. E material(s) involved, and take precautions to prot before reuse.		
5. Fire-fighting measures			
Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical	oowder. Carbon dioxide (CO	2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this w	vill spread the fire.	
Specific hazards arising from the chemical	May burn with invisible flame. Vapors may form e than air and may spread near ground to sources distance to a source of ignition and flash back. D formed. Carbon oxides. Organic compounds.	of ignition. Vapors may trave	el considerable
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full prote	ctive clothing must be worn	in case of fire.
Fire fighting equipment/instructions	In case of fire and/or explosion do not breathe fu water. Move containers from fire area if you can		ed to flames with
Specific methods	Use standard firefighting procedures and conside	er the hazards of other involv	ed materials.
General fire hazards	Highly flammable liquid and vapor.		
6 Accidental release mea			

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapors. Avoid contact with skin, eyes and clothing. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. Avoid release to the environment. This product is miscible in water.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material. Clean surface thoroughly to remove residual contamination.
Environmental precautions	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	WARNING! Used bottles may catch fire if improperly discarded or stored near ignition sources. Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. Use only in accordance with directions. Avoid breathing mist/vapors. Avoid contact with skin, eyes and clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Keep away from heat, sparks and open flame. Keep away from combustible material. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a well-ventilated place. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Keep containers closed when not in use. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Components	Туре	Value

Components Value	Determin	nant Specimen Sampling Time	

* - For sampling details, please see the source document.

Appropriate engineering controls	Explosion-proof general and local exhaust ventilation. Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. Provide eyewash station and safety shower.
Individual protection measures	s, such as personal protective equipment
Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin protection	
Hand protection	 Wear appropriate chemical resistant gloves. Take note of the information given by the manufacturer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Recommended materials: Polyethylene. Neoprene. Chlorinated polyethylene (or Chlorosulfonated polyethylene). Natural rubber. Polyvinyl chloride (PVC). Nitrile rubber/Nitrile latex - NBR Ethyl vinyl alcohol laminate ("EVAL"). Unsuitable materials: Polyvinyl alcohol (PVA).
Skin protection	
Other	Wear suitable protective clothing.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Wear NIOSH approved respirator appropriate for airborne exposure at the point of use. Check with respiratory protective equipment suppliers.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Colorless.
Odor	Alcohol-like.
Odor threshold	Property has not been measured.
рН	Property has not been measured.
Melting point/freezing point	Property has not been measured.
Initial boiling point and boiling range	> 179.6 - < 192.2 °F (> 82 - < 89 °C)
Flash point	68.9 °F (20.5 °C)
Evaporation rate	Property has not been measured.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Explosive limit - lower (%)	2 %
Explosive limit - upper (%)	12 %
Vapor pressure	43 hPa (32 mm Hg) (68 °F (20 °C))
Vapor density	Property has not been measured.
Relative density	0.872 (68 °F (20 °C))
Solubility(ies)	
Solubility (water)	Soluble in water.
Partition coefficient (n-octanol/water)	Not applicable to mixtures.
Auto-ignition temperature	750.2 °F (399 °C)
Decomposition temperature	Property has not been measured.
Viscosity	Property has not been measured.
Other information	
Explosive properties	Not explosive.

Kinematic viscosity	Property has not been measured.
Oxidizing properties	Not oxidizing.
Particle size	Not applicable.
Percent volatile	100 % (IPA)

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials. Protect against direct sunlight.
Incompatible materials	Aldehydes. Halogenated organics. Halogens. Strong acids. Strong oxidizing agents.
Hazardous decomposition products	Combustion may produce: Oxides of carbon and other organic substances.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause drowsiness or dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.
Skin contact	Prolonged skin contact may cause temporary irritation.
Eye contact	Causes serious eye irritation.
Ingestion	Ingestion may cause irritation and malaise.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause drowsiness or dizziness. Headache. Nausea, vomiting.

Information on toxicological effects

Acute toxicity

Not expected to be acutely toxic.

Components	Species	Test Results
Propan-2-ol (CAS 67-63-0)		
Acute		
Dermal		
LD50	Rabbit	12870 mg/kg
Inhalation		
Vapor		
LC50	Rat	72.6 mg/l, 4 hours
Oral		
LD50	Rat	4710 mg/kg
Skin corrosion/irritation	Prolonged skin contact may c	ause temporary irritation.
Serious eye damage/eye irritation	Causes serious eye irritation.	
Respiratory or skin sensitizatio	n	
Respiratory sensitization	Not a respiratory sensitizer.	
Skin sensitization	This product is not expected to	o cause skin sensitization.
Germ cell mutagenicity	No data available to indicate p mutagenic or genotoxic.	product or any components present at greater than 0.1% are
Carcinogenicity	Not classifiable as to carcinog	enicity to humans.
IARC Monographs. Overall	Evaluation of Carcinogenicity	
Propan-2-ol (CAS 67-63	-0)	3 Not classifiable as to carcinogenicity to humans.
NTP Report on Carcinogen	s	
Not listed.		
	ed Substances (29 CFR 1910.1	001-1053)
Not listed.		

Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	May cause drowsiness or dizziness.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not an aspiration hazard.
Chronic effects	Frequent or prolonged contact may defat and dry the skin.

12. Ecological information

Ecotoxicity

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

		5 1 1	0 0
Components		Species	Test Results
Propan-2-ol (CAS 67-63-0)			
Aquatic			
Acute			
Crustacea	LC50	Daphnia magna	> 10000 mg/l, 24 hours
Fish	LC50	Pimephales promelas	9640 mg/l, 96 hours
Chronic			
Crustacea	EC50	Daphnia magna	> 100 mg/l, 21 days
	NOEC	Daphnia magna	141 mg/l, 16 days
			30 mg/l, 21 days
sistence and degradability	No data is	available on the degradability of any	ingredients in the mixture.
accumulative potential	Bioconcentration potential is low.		
Partition coefficient n-octa Propan-2-ol (CAS 67-63-0)	nol / water (l	og Kow) 0.05	
bility in soil	Isopropyl alcohol is highly mobile in soil.		
ner adverse effects	The product contains a volatile organic compound which has a photochemical ozone creation potential.		
. Disposal consideratio	ons		
posal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.		
cal disposal regulations	Dispose in accordance with all applicable regulations.		
zardous waste code	D001: Waste Flammable material with a flash point <140 F The waste code should be assigned in discussion between the user, the producer and the wast disposal company.		
		· · ·	

Dispose of in accordance with local regulations. Empty containers or liners may retain some Waste from residues / unused product residues. This material and its container must be disposed of in a safe manner.

Since emptied containers may retain product residue, follow label warnings even after container is **Contaminated packaging** emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
