

Contec “Ignites Innovation” through Customer Feedback

New digital tool designed to identify contamination control challenges and develop critical solutions

Spartanburg, SC – June 1, 2023 -Contec, Inc., strives to deliver new products and solutions for critical contamination control needs. Ignite Innovation is a program that allows industry experts to easily submit their biggest contamination control challenges online.

"My team has the unique job of assisting all divisions within Contec," says Lisa Strickland, Research and Development Manager. "Ignite Innovation allows our customers to send us their ideas and challenges through our website so we can efficiently evaluate how we can help."

Ignite Innovation allows people to share insights and ideas and help Contec design better products for the future. An internal, cross-functional team reviews Ignite Innovation suggestions to determine the feasibility of each idea. If approved, the request will be entered as a project and potentially become a new product! Every idea will not make it into production, but each submission will be acknowledged and taken into consideration.

Contec is a global leader in contamination control, delivering positive outcomes to its partners operating and innovating in the world's most critical and evolving markets. Have you ever wanted to suggest a new product or feature improve or simply your contamination control process? Now is your chance! Your opinion is valuable to Ignite Innovation.
