You want control, we'd like to help...

Cleaning and maintaining an Animal Lab is challenging and resource-intensive but consistency, effectiveness and compliance are critical to helping reduce potential contamination and delays in research. Decisions related to facility design and maintenance should include best practices for cleaning and disinfection of Animal Lab facilities, and as a leader in contamination control in critical environments for more than 30 years, Contec has helped our distribution partners and end users maintain compliance in the most critical of cleaning applications. Get in touch with us for more information on how we can help!

Where	What	When	Why
Cage wash and vivarium floors	ZeroGravity™ QuickChange handle with ZeroGravity™ mop frame and standard z-clip connector	Daily	ZeroGravity™ QuickChange handles are extremely lightweight and flexible. The blue mop frame is 100% recyclable polypropylene and features the lowest profile available in a mop, making cleaning under racks, cages, and equipment easier with Premira® mop pads.
Cage wash and vivarium walls and ceiling	ZeroGravity™ QuickChange handle with ZeroGravity™ mop frame and adjustable z-clip connector	Monthly	Using the ZeroGravity™ QuickChange handles and the adjustable Z-Clip connector gives precise control with less drip while cleaning overhead surfaces like walls and ceilings when paired with a High Res Mop™ Pad.
Hoods, bio-safety cabinets and isolators	ZeroGravity™ handle and Tight Quarters mop frame	Daily or as needed	ZeroGravity™ handles also come in small sizes ideally suited for cleaning in confined areas like hoods, isolators and bio-safety cabinets. When paired with Premira® Tight Quarters pads, cleaning and disinfection is simple and easy.
Cage wash and vivarium hard-to-reach areas	ZeroGravity™ QuickChange handles with High Duster XF	Monthly or as needed	Contec Professional's ZeroGravity™ QuickChange handles are also fully compatible with the innovative High Duster XF and Premira® microfiber covers to help clean difficult areas on cage tops, behind water lines, air lines, hoses, plenums, nozzles and fixtures.
Hallways and large areas	ZeroGravity™ QuickChange handles with claw string mop connector	Monthly or as needed	ZeroGravity™ QuickChange handles are flexible enough to accommodate a variety of different tasks like standard string mop cleaning in large areas and hallways with the claw string mop connector and Edgeless® mop.
Vivarium and cage wash scrubbing tasks	ZeroGravity™ QuickChange handles with standard z-clip copnnector and Tight Quarters mop frame	Daily or as needed	Use the Tight Quarters mop frame and ZeroGravity™ QuickChange handles with standard z-clip for heavier scrubbing tasks with Contec Professional scrub pads.
All areas	Toolflex One™ rails and holders	Daily	For storing and organization of ZeroGravity™ QuickChange handles, parts and connectors, nothing beats Toolflex One™ to effectively organize, efficiently store and quickly access a wide variety of tools.
