

Buckets

Replacement buckets for Contec's bucket systems

Contec offers a variety of mop buckets made from a unique polypropylene copolymer plastic that is both durable and lightweight. Buckets are color-coded (blue, red, and gray) for easy identification of waste vs. fresh solution. Compatible with all common disinfectant solutions and most common solvents. All components listed may be sterilized by autoclave or gamma irradiation.

Autoclavable at 121° C for 30 minutes.
