

PROSAT® Meltblown Polypropylene Wipes

Presaturated with 70% denatured ethanol and 30% DI water

PROSAT® meltblown polypropylene wipes offer exceptional cleanliness suitable for use in a wide variety of critical environments. Saturated with a solution of 70% denatured ethanol and 30% deionized water, the wipes provide a uniform and consistent application of the solution to the surface. PROSAT® PS-911ETOH wipes are exceptionally clean and also free from additives of any kind.

Presaturated wipes ensure consistent saturation of each wipe independent of operator. Presaturated wipes can increase solvent control and accountability as well as reduce VOC emissions. The wipes are provided in convenient and easy to use peel and reseal pouches.

Suitable for use in many critical environments, PS-911ETOH wipes are ideal for wiping articles prior to pass through, cleaning process tools and other equipment and general surface cleaning.
