

# Contec® MicroCinch™ Mop

## Microfiber flat mop

The USP <797> compliant, disposable Contec MicroCinch Mop is constructed with 100% synthetic microfiber that provides superior removal of gross soil and fine particulate. Reduces cross contamination associated with reprocessed mops, and is suitable for ISO Class 7 and 8 environments. Compatible with most common disinfectant chemistries including quaternary, alcohol, peroxide, and bleach-based disinfectants, the low-lint flat mop can be used wet or dry, and the pad provides uniform surface coverage and liquid distribution.

The “pocket” style design allows for quick changing of mop pads and the collapsible mop frame, available in heavy-duty plastic, easily snaps into the pad pockets. Contec’s MicroCinch Mop is the ideal solution for daily cleaning and disinfecting of Secondary Engineering Controls required in pharmacy environments. Cleanroom packaged for guaranteed quality and cost effectiveness.

Mops are available sterile per AAMI guidelines.
