

# Contec® Prep Mat

## Absorbent, dual layered pad for immediate spill cleanup

The conveniently-sized 16" x 21" (41 x 54 cm) Contec® Prep Mat helps to minimize the contamination introduced into the ISO Class 5 work area, unlike traditional pulp layer options that may contaminate the work area or influence the state of control. The latex-free fabric construction consists of two layers: an absorbent layer that helps contain occasional spills, and a barrier layer that prevents the spill from penetrating through to the work surface.

The Contec Prep Mat is a convenient isolation hood tool that helps protect pharmaceutical technicians when compounding, handling, and administering Compounding Sterile Preparations (CSPs) and hazardous drugs. Ideal for use in USP <797> and USP <800> regulated areas during compounding, administering drugs in patient areas, or cleaning during compounding changeover. Available irradiated or non-irradiated.

Designed for use in pharmacy cleanrooms, Contec® Prep Mats are ideal for quick and easy spill control and cleanup.

| Features                                       | Benefits  |
|--|---|
| Low particulate; lint-free construction        | <ul style="list-style-type: none"> <li>• Features better particles and fibers than common industry options which result in less contamination potential for ISO Class 5 work areas</li> </ul> |
| Absorbent and barrier layers                   | <ul style="list-style-type: none"> <li>• Great liquid capacity, without penetrating through mat to work surface</li> </ul>  |
| Ideal for USP <797> and USP <800> applications | <ul style="list-style-type: none"> <li>• Makes cleanup and spill control an easier process to manage</li> </ul>   |
| Lot number on inner bags                       | <ul style="list-style-type: none"> <li>• Mats are completely traceable by lot</li> </ul>  |
| Available irradiated and non-irradiated        | <ul style="list-style-type: none"> <li>• Offers a flexible product mix based on required protocols</li> </ul>   |

| Part no. | Description                 | Packaging   |
|----------|-----------------------------|---|
| HCPD0001 | Contec Prep Mat             | 25 pads/inner bag, 6 inner bags/inner box, 4 inner boxes/case |
| HCPD0005 | Contec Prep Mat, irradiated | 25 pads/inner bag, 6 inner bags/inner box, 4 inner boxes/case |

The 16" x 21" Contec Prep Mat is dual layered: a textured, absorbent layer for fast spill containment and a smooth barrier layer for work surface protection.
