

# Contec® Healthcare Low-Lint Hand Drying Wipes

## Absorbent, disposable, low-lint wipe for hand drying

Proper hand hygiene and selecting the right consumables are essential for maintaining control in sterile compounding environments. Contec Healthcare's <797>-compliant, low-lint hand-drying wipes offer an effective solution. These large, absorbent 17" x 9" (43 x 23 cm) wipes come in easy-to-open plastic bags and dispense from a stainless-steel dispenser available in both wall-mounted and mobile tabletop options when using the new stand accessory. The bottom-pull design prevents water from contaminating other wipes, addressing issues common with traditional 12" x 12" stacked wipes. The packaging ensures easy handling and maintains wipe stack integrity for lot traceability. Contec's low-lint hand-drying wipes meet USP <797> standards.
