

# Premira® II Selvage String Mop

## Absorbs spills and traps loose debris

Repurposed from Premira® II microfiber post-industrial material, the Selvage String Mop is designed to help clean areas where large volumes of liquids and debris can occur on floors. The disposable design discourages redistribution of dirty mop water and reduces cross-contamination risks. Use single-use Premira II Microfiber Pads afterwards to help disinfect, deep clean and maintain floors.

The ZeroGravity™ QuickChange touchless claw connector from Contec Professional securely grips the Selvage String Mop with a single-motion locking mechanism. Simply pull back on the gray handle to close the claw on the mop, and press the release clip to drop the mop for disposal. For best results, utilize the QuickChange system to follow use of the Selvage String Mop with single-use Premira® II Microfiber Pads to remove residues and enhance the benefits of mechanical removal.

### ZEROGRAVITY™ QUICKCHANGE TOUCHLESS CLAW MOP CONNECTOR

#### Get a grip on cleaning

The ZeroGravity™ QuickChange touchless claw connector from Contec Professional securely grips the Selvage String Mop with a single-motion locking mechanism. Simply pull back on the gray handle to close the claw on the mop, and press the release clip to drop the mop for disposal. For best results, utilize the QuickChange system to follow use of the Selvage String Mop with single-use Premira® II Microfiber Pads to remove residues and enhance the benefits of mechanical removal.
