

Cleaning Product Recommendations for Healthcare EVS

Clean counts most

Superior Performance for Superior Outcomes.

We understand the complexities of ensuring that your facility is clean, safe, and healthy for both patients and staff alike. Labor shortages and budget cuts feel like the norm even though threats from new pathogens are on the rise.

Contec® Professional offers a full product portfolio for healthcare EVS teams to clean more effectively. Our Premira® single-use mops, wipes, and dusters help reduce the risks of cross-contamination and spread of bacteria. Powered by advanced microfiber technology, they effectively capture and retain dirt, dust, and pathogens until they're disposed of. The ContecClean™ Cloth is ideal for applying disinfectants and other chemicals, and the Unifore® Surface Wipes also provide great results. Single-use products can increase efficiency and improve consistency with positive outcomes.

Our ZeroGravity™ hardware is durable yet lightweight, helping to reduce strain and ergonomic issues related to cleaning. This can be a welcomed benefit when dealing with a reduced or aging workforce. Interchangeable connectors, telescoping handles, and other innovative features of the ZeroGravity line make it an excellent choice for EVS professionals.

Some of the areas in healthcare facilities where Contec Professional mops, wipes, dusters, and hardware are used include:

- Patient rooms and bathrooms
- Treatment rooms
- Surgical units and operating rooms
- Emergency rooms
- Radiology and MRI rooms
- Labor and delivery rooms
- Physical therapy spaces
- Lobbies and waiting areas
- Pharmacies and laboratories
- Cafeterias and kitchens
- Locker rooms and employee areas
- Offices and conference rooms
- Hallways and stairwells
- Elevators
