

Trashformer™ Tool Caddy, Apron, and Pocket

Transform your trash can into a mobile workstation

Contec® Trashformers™ are designed to improve cleanliness and efficiency. The right Trashformer selection for your facility makes it easy to bring best-in-class disposable mop pads and hardware anywhere that clean counts most.

The Tool Caddy component can hold up to three handles or tools of various sizes including mops, high dusters, brooms, dust pans, squeegees, and more. The Toolflex® holders are replaceable, and the durable wire frame of the Tool Caddy doesn't interfere with changing out the can liner.

The Apron and Pocket are both constructed of durable, chemical resistant material. The Apron offers a variety of pockets, including one sized for a wipes canister and one for Premira® mop pads. The stand-alone Pocket holds up to 20 Premira mop pads. It straps on and off easily to use anywhere, such as on a can or cart handle — or even a belt loop!

TURN “CAN’T” INTO “CAN” WITH TRASHFORMERS™
 Take the tools you need with you easily, efficiently. There is no need to drag around both a cart and a garbage can, slowing down your efficiency. Contec Trashformers fit on standard sized rolling trash cans, and they are sturdy enough to hold the products and tools you need to get the job done.

Features & Benefits

- Design helps combine trash collecting and cleaning tasks for more efficiency
- Chemical resistant fabric protects supplies from spills, wear and tear
- Components allow for greater customization based needs or preferences
- Toolflex® holders fit all ZeroGravity™ mops, high dusters, and connectors
- Lean storage footprint frees up valuable space for supplies, etc.
