

Unifore® Surface Wipes

Polypropylene single-use wipes

Unifore® Surface Wipes are ready-to-saturate, disposable cleaning wipes featuring a durable polypropylene construction. They effectively remove dirt while also delivering a consistent, uniform amount of chemistry to the surface being cleaned. Unifore can be used in your current cart's wipe bucket or in the provided dispensing bucket with carrying handle. Made in the USA, Unifore Surface Wipes provide dependable performance while being an economical alternative to other disposable wipes or launderable rags.

UNIFORE® SURFACE WIPES

Choose your preferred cleaning chemistry

The handled refillable bucket lets users customize and create their own presaturated Unifore Surface Wipes. The compact design maximizes chemical use and reduces waste. Users can select their preferred cleaning chemistry and pour directly into the bucket when ready to use. Like all Contec® Professional products, Unifore Surface Wipes helps make cleaning more convenient, more compliant, and more clean.

Features	
Designed to use less chemistry and reduce costs associated with chemicals	
Offers broad chemical compatibility and even reduces odors associated with acetic and peroxyacetic acid chemistries	
Refillable dispensing bucket offers easy way to saturate on demand	
Self-closing canister lid for perfed rolls to prevent drying
